## GulfStream™ SWIMMING POOL HEAT PUMPS TITANIUM

### The GulfStream Heat Exchanger

REVOLUTIONARY, EFFICIENT TECHNOLOGY

**GulfStream™ revolutionizes heat pump technology . . . again!** GulfStream was first in the industry to utilize titanium in our heat exchangers and changed the industry standards. They said it couldn't be done with titanium, but we took it a step further by rifling our titanium tubing, adding even greater efficiency in the heat exchange process.

The GulfStream Hi-E Series of Swimming Pool Heat Pumps has done it again with our exclusive, specially designed State Of The Art TXV (Thermal Expansion Valve) which has been optimized for R-410A Refrigerant to precisely regulate the flow of refrigerant through our patent pending coil to achieve maximum efficiency especially at lower temperatures, allowing lower cost of operation.

**THE RESULTS ARE MORE HEAT FOR LESS MONEY . . . MAKING GULFSTREAM THE MOST EFFICIENT POOL HEAT PUMP IN THE WORLD.**
