What is distance from waters edge to placement in deck? _____

GRABRAILS: Distance from waters edge to placement in deck? _____

FILL SPOUT: Distance from waters edge to placement in deck? _____

SLIDE LEGS: Distance from waters edge to placement in deck for each leg? _____

DIVING BOARD STAND: Distance from waters edge to diving stand? _____

**FOR ALL OTHER OBSTRUCTIONS THAT ARE NOT REMOVABLE
(RAISED SPAS, WALLS, PLANTERS, ETC.), DRAWINGS AND A-B
DIMENSIONS MUST BE SUPPLIED. PHOTOS ARE RECOMMENDED.**

MEASURING INSTRUCTIONS

2015

- Using chalk make a mark at edge of coping, three feet apart around perimeter of pool.
- Number each mark, be certain to number all non-moveable objects, example slide legs, diving board Etc.
- Establish two points A and B, roughly three feet from water line of pool at least half the length of the pool in distance. **DO NOT ALLOW LINE BETWEEN POINT A AND B TO CROSS WATERS EDGE.**
- Now measure the distance between point A and point 1, then point A and point 2 and so on. Once completing, then measure the distance between point B and point 1 and so on.
- Now measure the widest point of the pool and mark that and the point numbers on the sheet.
- Now measure the longest point of the pool and mark that and the point numbers on the sheet.

PoolCo USA

2015

Establish two points, A and B, a minimum of three feet from pool, not crossing water and at least half the length of the pool in distance. Mark distance between A & B _____

Sketch pool and show location of point A and B to pool and any areas with less than four feet for deck to waters edge.
