**The Gulf Stream Heat Exchanger**

Revolutionary, Efficient Technology

**Gulf Stream™ revolutionizes heat pump technology . . . again!** Gulf

Stream was first in the industry to utilize titanium in our heat exchangers and changed the industry standards. They said it couldn't be done with titanium, but we took it a step further by rifling our titanium tubing, adding even greater efficiency in the heat exchange process.

The Gulf Stream Hi-E Series of Swimming Pool Heat Pumps has done it again with our exclusive, specially designed State Of The Art TXV (Thermal Expansion Valve) which has been optimized for R-410A Refrigerant to precisely regulate the flow of refrigerant through our patent pending coil to achieve maximum efficiency especially at lower temperatures, allowing lower cost of operation. **THE RESULTS ARE MORE HEAT FOR LESS MONEY . . . MAKING GULFSTREAM**
